PROTECTING YOUR CONTAINERISED CARGOES FROM MOISTURE DAMAGE

www.nordicdry.com

MISSION STATEMENT

To provide our customers the complete peace of mind that their containerised cargoes of goods will be delivered completely free of moisture related damage or degradation.

OUR COMMITMENT

To completely control moisture in shipping containers by providing goods and services that are highly effective, competitively priced, whilst minimising any impact on the environment.

**YOUR ECO-FRIENDLY
DESSICANT**

HOW OUR EXPERTISE HELPS YOU

Our team has over 30 years of experience fighting humidity related problems in shipping containers and equipment storage. We work hand in hand with our customers, personally analyzing each container, rig and vessel and carrying out the necessary tests to determine:

1. The type & quantity of product to be used
2. The strategic placement of the desiccant
3. How the used product can be recycled and reused in your supply chain.

"Nordic Dry has been verified to be 100% Non-Toxic by the ALS Laboratory Service and specifically free of Acrylamide, which can be prevalent in some starch based desiccants. Nordic is approved for use in all transportation of food and agricultural products."

We help you to eliminate humidity related problems during the shipment and storage of your products and equipment.

Your containerised cargoes whilst in transit can undergo extreme variations in temperature and subsequent humidity variations. The swings in humidity can cause serious damaged due to mold, mildew, fungus, corrosion, rust caking and general product degradation. Nordic desiccants will control the humidity below the dew point to ensure the conditions giving rise to such damage do not occur.

No matter what your products are; agricultural, metal, electronics, furniture,

resins, canned food, detergents, we can protect your precious cargoes to ensure they arrive in same the condition that they were shipped, reducing subsequent cargo claims, saving you money and time.

Using Nordic Dry Desiccants will ensure that you continue to satisfy your customers by delivering goods to specification and free of damage, minimizing claims, while maximizing profits.

And above all, our solutions have been extensively tested and confirmed to be non-toxic and are 100% recyclable minimising impact upon health and the environment.

CUSTOMERS SPEAK

“Nordic offers a high quality desiccant product but just as important, they offer excellent customer service. In my experience, Nordic is very proactive in checking to see that their product is working the way they claim it to work”

A.R.
Maritime Cargo Insurance Broker

“I highly recommend the Nordic Dry desiccant product to any shipper looking to minimise moisture related problems with their cargo. I have used Nordic product ... and found it to greatly reduce these problems in a cost effective manner.”
